

### Pupil Premium Spending Statement for 2015/16

The Government believes that the Pupil Premium funding, which is additional to the main school funding, is the best way to address inequalities between pupils in specific groups. Pupil Premium Funding is therefore used to tackle disadvantage in order to reach the pupils who need it most.

Schools are funded Pupil Premium @ £1320 per pupil for

- all pupils who are eligible for free school meals (FSM).
- all pupils who have been eligible for free school meals (FSM ) at any point during the last 6 years.

Schools are funded a further £300 per pupil for

- all EYFS pupils who are eligible for the funding

Schools are funded a further £300 per pupil for

- all pupils who have parent/carers in the armed services
- Schools are funded a further £1900 per pupil for
- all pupils who have been looked after continuously for more than six months by someone other than their immediate family.

The government awards the funding to help raise attainment for these pupils. National data shows that as a group nationally, pupils who have been eligible for FSM's at any point in time have consistently lower educational attainment than those who have never been eligible for FSM's.

### How we used our funding for 2014/15

The total Pupil Premium funding for Hilltop Primary School for the financial year 2014/15 was **£182,300**

Area	Action	Cost	Impact
ACHIEVEMENT	We organised a celebration event for our year 6 pupils to recognise their achievements.	£325	Children attended a celebration event for their achievement throughout the year. Data indicates that the progress of PP pupils across KS1 is outstanding in all reading, writing and maths. In KS2 end of year data demonstrates that all groups of learners at level 4 in reading, writing and maths are out performing national statistics from 2014. School data identifies that across KS2 APS progress is at least good with the exception of one year group in reading and writing. This will be a focus cohort for additional support and intervention.
QUALITY OF TEACHING	To improve the quality of teaching and learning with enhanced literacy and numeracy resources	£8,300	Children were able to access a range of resources to deepen their knowledge and understanding. Triangulation meetings
	Targeted intervention groups delivered by trained support staff removing barriers and guarantee accelerated progress	£105,198	Children who were not making the expected level of progress were provided with additional support and intervention. A strong focus on basic skills enabled pupils to gain the skills and knowledge that they need to reach higher levels.  Accelerated progress with a focus on early intervention enabled

The support put in place, as appropriate, for pupils receiving free school meals results in those pupils making expected or above expected progress. Close observation of the results achieved by pupils receiving free school meals ensures that if a pupil should show signs of falling behind, they are provided with the necessary support offered by one of our interventions.

We continuously monitor levels of progress and attainment for all pupils very carefully. Where pupils would benefit from additional support to boost their learning, this funding can add to the opportunities that we are able to offer. The funding is used on a priority basis to support any pupil who needs it in order to achieve at least the levels expected for their age. This is reviewed on a termly basis so that the allocation is appropriate according to current levels of attainment and rates of progress. Funding supports the acquisition of skills in Literacy and Numeracy but also the social and emotional needs of our pupils.

### Effective monitoring and evaluation of the impact of spending

At Hilltop Primary we use achievement data frequently to check whether interventions or techniques are working and make adjustments accordingly, rather than just using the data retrospectively to see if something has worked. We have ensured that all support staff, particularly teaching assistants, are highly trained and understand their role in helping pupils to achieve. We are systematically focusing on giving pupils clear, useful feedback about their work, and ways that they could improve it.

A designated senior leader is leading on the 'Pupil Premium' initiative ensuring that there is a clear overview of how the funding is being allocated and the difference it is making to the outcomes for pupils, ensuring that class teachers know which pupils are eligible for the Pupil Premium so that they can take responsibility for accelerating their progress.

### **Achievement**

The support put in place, as appropriate, for pupils receiving free school meals results in those pupils making expected or above expected progress. Close observation of the results achieved by pupils receiving free school meals ensures that if a pupil should show signs of falling behind, they are provided with the necessary support offered by one of our interventions programmes. We continuously monitor levels of progress and attainment for all pupils very carefully.

Where pupils would benefit from additional support to boost their learning, this funding provides the opportunities that we are able to offer. The funding is used on a priority basis to support any pupil who needs it in order to

achieve at least the levels expected for their age. This is reviewed on a termly basis so that the allocation is appropriate according to current levels of attainment and rates of progress. Funding supports the acquisition of skills in Literacy and Numeracy but also the social and emotional needs of our pupils.

### Quality of Teaching and Learning

Teachers are focussed on differentiated for groups of all learners and are moving away from whole class teaching in order to target the learning more effectively within each lesson. There is evidence that teaching is 93% is good or above - 40% is outstanding.

In addition to the above, the school recognises the fundamental importance of quality first teaching for all its pupils. We have therefore used our staff development time to focus on securing consistently good teaching and learning with much moving to outstanding. We have reviewed our approach to marking and feedback, the use of effective questioning and enabling children to understand how to be effective learners.

The quality of teaching and learning is central to all pupils making progress throughout school and through the targeted intervention groups delivered by quality trained support staff enabling the pupils to remove any barriers to learning and guarantee accelerated progress. The strong focus on the basic skills enable the pupils to gain the skills and knowledge that they need to reach higher levels.

The enriched curriculum ensures all children are engaged in the learning by doing more. Pupils are more confident in their main classes and this increases their participation whilst positively impacting on behaviour.

### Behaviour and Safety

Pupils' attitudes to learning are of an equally high standard across school, incidences of low-level disruption in lessons are extremely rare. Pupils' excellent conduct and behaviour reflects the school's effective strategies to promote high standards; this makes a strong contribution to an exceptionally positive climate for learning.

Staff and pupils are unreservedly positive about both behaviour and safety. Pupils are aware how good attitudes and behaviour contribute to school life, adult life and work. Pupils' pride in the school is shown by their excellent conduct, manners and punctuality, which is identified through external visitors

### How we know that we are spending our Pupil Premium effectively and that it is 'narrowing the gap'.

- Our Pupil Premium spending action plan includes performance measures and all of our spending priorities are evaluated and reviewed to ensure that they are successfully improving outcomes for children.
- Our school performance data shows that in all key stages, pupils eligible for Pupil Premium funding make good or better progress in Reading, Writing and Maths, and in the vast majority of classes and subjects, they make similar progress to those children not eligible for Pupil Premium.
- The pupils receiving additional support have made accelerated progress and are now closing the gaps in attainment.
- Many families have received targeted interventions to support their children's learning.
- Pastoral work targets the most vulnerable pupils to support their emotional needs.
- All classes have a wide range of phonic materials to promote reading. Consequently this year has been phenomenal and attainment in KS1

### Our Pupil Premium allocation for 2015/16 is £175,380

All schools are required to publish, on their websites, what the funding they have received and how the money is being spent. Each school may decide how best to use the funding and they are held accountable for how it has been used to support pupils from low income families.

At Hilltop we are making provision for socially disadvantaged pupils, however we also recognise that not all pupils who receive free school meals will be socially disadvantaged. We also recognise that not all pupils who are socially disadvantaged will be registered or qualify for free school meals. We reserve the right to allocate the Pupil Premium funding to support pupils or groups of pupils the school has identified as being socially disadvantaged.
